

CoVid-19 is an infectious disease caused by severe acute respiratory syndrome coronavirus 2(Sars-cov-2) and affects different people in different ways. The virus spreads primarily via small droplets produced by coughing, sneezing and talking. Most infected people will develop mild to moderate illness and recover without hospitalization.

Most common symptoms

Fever, dry cough, tiredness

Less common symptoms

aches and pain, sore throat, diarrhea, conjunctivitis headache, loss of taste and smell, rash on skin

Baldovin Ballet Zagreb is being responsible by disinfecting frequently used areas multiple times a day, by offering hand sanitizer at the studio, optimal distancing between changing places in the wardrobes and also by not accepting a bigger number than 15 in any of the dance programs that we offer.

We are kindly asking our students to be responsible and not to come to the studio with fever or any other of the known Covid-19 symptoms in order not to spread the virus to other any other students, teachers, staff, visitors or any other member of our community.

Recommended measures to prevent infection include wearing face masks, frequent hand washing, maintaining social distance from others, covering coughs and keeping hands away from your face.

Our teachers and staff will wear face masks at the studio and during the class and we recommend that you do the same unless you have any condition that cannot support a face mask.

Be responsible, let's stay safe together.
